INVESTMENT APPROACH

The Towle Deep Value Fund **executes a fundamental, investment discipline that emphasizes the purchase of companies believed to be substantially undervalued** relative to their private market worth and normalized earnings power. Our bottom-up selection process strives to identify and invest in out-of-favor companies possessing significant appreciation potential.

Essential to this endeavor is a contrarian and independent viewpoint.

No attempt is made to manage the portfolio against the composition of a benchmark. While our deep value approach may include large capitalization stocks, the search for absolute value usually leads to equities with market capitalizations under \$5.0 billion.

The fund looks for well-seasoned companies with strong market positions, identifiable catalysts for earnings improvement, and committed, experienced management teams. Investments are focused on industries such as financial services, manufacturing, distribution, consumer products, transportation, and energy, among others.

The Towle Deep Value Fund is a 'non-diversified' fund which seeks long-term capital appreciation.

INVESTOR SUITABILITY

In general terms, the Fund may be appropriate for:

Risk Tolerant Investors - The Fund invests predominantly in smaller publicly-traded companies with market capitalizations under \$5 billion. The share prices of smaller companies can vary significantly from day-to-day due to lower trading volume, earnings volatility, unanticipated economic reports, and modest research coverage. Investors must be prepared for such unpredictability and be willing to withstand fluctuations in the value of their investment.

Long-Term Investors - The Fund is intended for investors possessing a minimum investment horizon of three years and preferably longer. It is not designed to provide investors a way to speculate on short-term movements in the stock market.

Diversified Investors - The Fund does not provide broad sector exposure nor does it emulate the composition of a particular benchmark. Investors should maintain diversified holdings of securities and not consider this Fund their sole source of equity exposure.

Socially Responsible Investors - The Fund does not invest in tobacco, liquor, or gaming companies and may be appropriate for investors who wish to avoid these industries with their investment capital.

Investors should consider the Fund's investment objectives, risks, and expenses carefully before investing. To obtain a prospectus, or summary prospectus, which contains this and other information about the Fund, call 1-888-99TOWLE (888-998-6953) or visit www.towlefund.com. Please read the prospectus carefully before investing.

Stock fund prices fluctuate and investors may lose principal value. Micro-cap, small-cap and mid-cap stocks involve greater risks, and they can fluctuate in price more than larger company stocks. Foreign investments present additional risk due to currency exchange rate fluctuations, economic developments, political instability, and other factors. The Fund is non-diversified which increases the risk that the value of the Fund could go down because of the poor performance of a single investment. A value oriented investing style may go in and out of favor which may cause the Fund to sometimes underperform other equity funds. Portfolio holdings will change due to ongoing management of the fund. References to specific securities or sectors should not be construed as recommendations by the Fund, the Advisor or the Distributor.
